- **Made to Measure**
- **PVCu or Hardwood**

**Prices
from Just
£279**
inc VAT and fitting

Our Door Canopies are fabricated in modern PVCu or traditional hardwood and are available in many styles and any size to compliment your home.

Modern PVCu Door Canopies

Most people are familiar with the benefits that PVCu brings to the home. Such as being virtually maintenance free, impermeable to water and longer lasting than canopies made from other materials.

All our door canopies are made to measure and are fabricated from the same PVCu as modern doors and windows.

Why settle for a moulded, standard size door canopy when you could have one tailored to suit your property.

All designs are available in white or woodgrain PVCu

Traditional Hardwood Door Canopies

A Door Canopy not only offers practical solutions for your property, but adds style and definition to make an outstanding entrance for your home.

Nothing achieves this better than our beautiful and traditional range of hardwood canopies. Each of these are hand made and tailored to suit your requirements and are designed to make the entrance to your home not only more beautiful, but unique.
